

Our boats. Our plants. Your advantage.

Eastern handles approximately 20 million pounds of scallops each year, roughly 20% of the total U.S. consumption.

There's a reason why Eastern Fisheries is the world's largest scallop company:

With 23 scallop vessels fishing the N. Atlantic, we operate the industry's largest fleet. Our captains and crew guarantee year-round supply, and our processing plants achieve order-to-order consistency.

From catch to customer, Eastern is a trusted scallop source with over 30 years of proven experience.

- Fresh & frozen
- Sea & bay
- IQF & block frozen
- All-natural & water-added varieties
- Eastern brand or private label
